What is this product?

Type

This product is a share in a sub-fund of the investment company with variable capital ECONOPOLIS FUNDS, an undertaking for collective investment in transferable securities (UCITS) under Luxembourg law.

Term

This sub-fund has no maturity date. However, the board of directors of the fund may decide to close the sub-fund under certain circumstances.

Objectives

The sub-fund's objective is to offer its shareholders superior long-term capital gains. This objective will be pursued by investing the sub-fund's assets primarily in fixed income instruments, as well as cash or other monetary instruments and derivatives, without geographical limitation and without sectorial restrictions. The sub-fund will invest in a diversified portfolio.

The sub-fund is managed on a discretionary basis and will invest predominantly in fixed income instruments. Fixed income instruments will have a weight of at least 80% of the net assets of the sub-fund.

There are no limits or restrictions regarding geographical regions or other specific economic or industrial sectors or niches. The choices made by the Investment Manager are discretionary and reflect its expectations and strategic views. As a consequence, the allocation may vary from time to time.

The sub-fund should invest at least 70% of its net assets in euro. There are no other limits regarding currencies.

Investment grade bonds denominated in euro and cash or cash equivalent instruments denominated in euro, will make up at least 50% of the sub-fund's net assets. The rating will be defined based on the highest rating by one of the Big Three rating agencies. In the case where the bonds issues have no rating, the rating of the issuer itself will be used, if available.

The sub-fund can invest up to 30% of its net assets in high yield bonds and also up to 30% of its net assets in non-rated bonds, while combined the fund may only invest for 40% in non-investment grade bonds.

The sub-fund can invest in convertible bonds, including contingent convertible bonds, up to 10% of its net assets. In the event of a bond conversion to equity, the sub-fund may hold up to 5% of its net assets in equity. The sub-fund may also invest up to 20% of its net assets in perpetual bonds.

The Investment Manager will apply a discretionary policy based on an in-depth selection, using dedicated financial and other models (i) taking into account various fundamental parameters determining the financial condition and profitability of the relevant instruments and (ii) comprising a qualitative-based approach analysing, from a broader macro-economic perspective, the quality and ethical standards of the management of the relevant issuer, its portfolio of products and services, etc.

In an ancillary manner, up to 20% of its assets, the sub-fund may hold cash

deposits at sight.

The sub-fund may, subject to the limits defined by law, invest in financial derivative products, including, for example, futures, options, forward exchange contracts, credit default swaps or interest rate swaps in order to achieve the investment objectives and for risk hedging purposes.

The sub-fund promotes environmental or social characteristics. For this sub-fund, a sustainable investment policy is in place, which can be consulted on <https://www.econopolis.be/en/sustainability>. Additional information on sustainability is available in the prospectus of the fund.

Benchmark: The portfolio is actively managed on a discretionary basis without reference to a benchmark.

Intended retail investor

This product is designed for investors who are willing to achieve income and capital growth and have a medium term horizon. The investor is able to bear losses. This product is appropriate for investors with a basic to advanced knowledge and experience of the product and the global bond markets.

Other information

Depositary: Banque de Luxembourg

Dividend income: This class is a capitalisation class meaning that income is reinvested.

Conversion right: The investor has the right to convert his investment in shares of one sub-fund into shares of the same sub-fund or another sub-fund. The investor can obtain information about how to convert in the prospectus of the fund.

Segregation: The assets and liabilities of a sub-fund are segregated pursuant to the law so that the commitments and liabilities of one sub-fund do not affect the other sub-funds.

Additional information: Additional information about the fund, copies of its prospectus, the latest annual and semi-annual report and the latest prices of shares may be obtained free of charge from the Management Company or on www.conventumtps.lu. The prospectus and the periodic reports are prepared for the entire fund and are available in English. The Management Company may inform you about other languages in which these documents are available.

This sub-fund was launched in 2018 and this share class in 2018.

The currency of the share class is expressed in EUR.

What are the risks and what could I get in return?

Risk indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 2 out of 7, which is a low risk class. This rates the potential losses from future performance at a low level, and poor market conditions are very unlikely to impact our capacity to pay you.

Be aware of currency risk. You may receive payments in a currency that differs from your reference currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

The sub-fund is also exposed to the following materially relevant risks that are not included in the summary risk indicator: Other risk factors might exist.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

Performance scenarios

Recommended holding period: 3 years

Example investment: 10,000 EUR

		If you exit after 1 year	If you exit after 3 years (recommended holding period)
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	8,650 EUR	8,560 EUR
	Average return each year	-13.5%	-5.0%
Unfavourable	What you might get back after costs	8,890 EUR	8,950 EUR
	Average return each year	-11.1%	-3.6%
Moderate	What you might get back after costs	9,840 EUR	9,830 EUR
	Average return each year	-1.6%	-0.6%
Favourable	What you might get back after costs	10,770 EUR	11,290 EUR
	Average return each year	7.7%	4.1%

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate and favourable scenarios shown are illustrations using the worst, average, and best performance of a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

Unfavourable scenario: This type of scenario occurred for an investment between October 2019 and October 2022, by referring to a reference class.

Moderate scenario: This type of scenario occurred for an investment between April 2018 and April 2021, by referring to a reference class.

Favourable scenario: This type of scenario occurred for an investment between October 2022 and October 2025, by referring to a reference class.

The stress scenario shows what you might get back in extreme market circumstances.

What happens if BLI – Banque de Luxembourg Investments, acting under the commercial name Conventum Third Party Solutions is unable to pay out?

If we are not able to pay you out what we owe you, you are not covered by any national compensation or guarantee scheme. To protect you, the assets are held with a separate company, the depositary Banque de Luxembourg. Should we default, the investments are liquidated and the proceeds are distributed to the investors. In the worst case, however, you could lose your entire investment.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding period we have assumed the product performs as shown in the moderate scenario
- 10,000 EUR is invested

	If you exit after 1 year	If you exit after 3 years
Total costs	390 EUR	578 EUR
Annual cost impact (*)	3.9%	1.9% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 1.3% before costs and -0.6% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

Composition of costs
