#### Term

This sub-fund has no maturity date. However, the board of directors of the fund may decide to close the sub-fund under certain circumstances.

#### Objectives

The objective of the sub-fund is to offer investors, by means of an actively managed portfolio, a long-term capital gain on their investment. This objective will be pursued by investing the assets of the sub-fund primarily in shares and other equity securities, that have a geographical focus on Belgium.

The sub-fund invests mainly in shares and other equity securities, with diversification in terms of sectors covered. The sub-fund will invest in shares and other equity instruments of companies, with a geographical focus on Belgium. The sub-fund can invest in shares and other equity securities of which the selection will be based upon on-going financial evaluations, analysis of the macro economic environment and specific profile of the issuer, future developments etc. There are no limits or restrictions regarding currencies or other specific economic or industrial sectors or niches. The choices made by the Investment Manager are discretionary and reflect its expectations and strategic views.

The sub-fund's investment policy is based on an integrated approach in which valuation, quality and sustainability are important elements for stock selection. The manager conducts stock selection in a disciplined way by considering internal and external research reports and building internal valuation models that help determine whether a share offers potential. In addition, the manager focuses on internal and external sources in terms of sustainability analysis.

In an ancillary manner, up to 20% of its assets, the sub-fund may hold cash deposits at sight.

The sub-fund may, subject to the limits defined by law, invest in financial derivative products, including, for example, futures, options, forward exchange contracts in order to achieve the investment objectives and for risk hedging purposes.

The sub-fund promotes environmental or social characteristics. For this sub-fund, a sustainable investment policy is in place, which can be consulted on <https://www.econopolis.be/en/sustainability>. Additional information on sustainability is available in the prospectus of the fund.
